No. 1880—Eighth Year. BUENOS AYRES, SATURDAY, MAY 9, 1868. Circulation 2500

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

MINERVA COLLEGE.

MADAME FARNESI

Has the honor to inform Parents and Guardians that she has now Opened the above College for Young Ladies upon the plan of the first European Colleges, and has spared neither trouble or expense to have over efficient French and English Governesses, and hopes, with the aid of Masters, to give such a finished education as to do away with the necessity of sending young Ladies to Europe.

Madame FARNESI takes this opportunity to thank her Friends for the kindness and patronage they have shown her, and for the satisfaction they have expressed for her past efforts, she begs to assure them that nothing will be spared in the future to render the education perfect in every respect.

The House is large and airy, with Bathrooms and every comfort and convenience. A Doctor visits the College once a week. Prayers are held daily in separate rooms for the Protestant and Catholic Children, and a minister of each religion visits the College once a week for examination.

The Course of Instruction comprises French, English, and Spanish in all their branches; Geography, Grammar, Sacred and General History; Composition, Literature, Writing, and Arithmetic; Plain and Fancy Work of all kinds.

The Rules are strict, but every kindness and attention is shown the Pupils.

Every Six Months there is a Public Examination, that Parents may judge of the progress made and the course of studies pursued.

The first Saturday in the Month is a Holiday; and it is earnestly requested that, when possible, Friends will only visit the Pupils on that day or Sunday, to prevent the studies being interrupted.

The only Language allowed to be spoken is French. The greatest attention is paid to their manners and deportment, that they may not only be well-educated, but have the refined and elegant manners of a Lady; and that, if necessary, on leaving the College, they may be able to take their place at the head of the house.

The Elder Pupils who desire it are taught Dressmaking and Housekeeping, without extra charge, a Governess being kept for that purpose.

The Young Ladies are never left alone Night or Day, a Governess sleeping in each Room.

EXTRAS.

German, Italian, Music, Singing, Drawing, and Dancing.

For further particulars, address Madame FARNESI, 51 TACUARI. 206,1m,a30

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—

1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

Montevideo, May 8, 1868.

Government very active.

Mule carts, etc., are being pressed to transport men and materials into the camp.

Everything being done possible to prevent Perez marching beyond the Department of Soriano.

San José all quiet.

Maximo Perez reported still on the Arroyo Grande, in the Department of Soriano.

At Colonia it is rumored that Perez is marching upon Montevideo. The Gefe is very busy collecting forces to prevent Perez's further progress.

Bolsa thinly attended. Fair amount of business transacted. Gold quoted higher again to-day and business done to-day at sixteen per cent premium, closing unsteady at fifteen and a half.

Exchange upon London done at 45½ and 46. Upon France 300,000 francs at 4.80, closing at 4.75 Buenos Ayres 14 to 14½—very few transactions.

Few sales to note in the Import markets.

Coal has realized 18 dollars per ton, put on board in port.

Salt done at 18 to 20 rials per fanega.

Wool and hides—no business.

An English barque, chartered to load with salted hides and tallow at Fray Bentos to an English port, to wait orders, at 37s 6d and 5 per cent.

Curzo Forzoso.—To-day it is said a petition was signed by influential parties praying the Chambers not to interfere with the Bank Question, but to leave the banks to themselves. Those banks who are preparing for specie payment are reported to be making mutual exchange of their respective notes.

Weather inclined for rain.

TAX DESPOTISM.

Liberty, after all, is a costly plant, and Republican institutions of the freest and best nature require in South America such a pile of money to support, such a grinding system of taxation to maintain, that, with a sigh, we throw down the constitution, our civil codes, our statutes, and our charters, and involuntarily exclaim—"How much longer can they last!"

Could the framers of the Argentine Constitution rise from their coffins and behold the pyramids of paper dollars and gold coin necessary to carry out their dream of government, they would tear to atoms the Constitution which they signed, and sink abashed and ashamed to their tombs.

On more than one occasion we have called attention to the gigantic system of taxation going on in this country. Without the slightest exaggeration we can say that ten per cent. of the earnings of the poor, and of the incomes of the rich, go into the pockets of the taxman. Everything that we see, feel, hear or touch, one way or another, is taxed. No man in Buenos Ayres can say what becomes of all the money. Some few years ago we all groaned under the taxation of the Custom-house. The receipts then were only half what they are at present, and we all then thought that the National Government was ruling with such extravagance that it was running at break-neck speed on the high-road to ruin. We recollect, when sailing to the outer roads some years ago with the captain of a foreign steamer, as he viewed the forest of shipping riding at anchor in the roads, his cutting remark as to the public extravagance going on in a country which possessed so great trade, and had so little to show for it. What would he say to-day were he to come here and see the trade of the port doubled, and the passengers, as of old, coming ashore in horse-carts.

But stupendous as are the receipts of the Custom-house they are already becoming insignificant with the local taxation of the city, which is rising to such dimensions that soon property holders may as well give up their total rentals as keep on paying the taxes. The compound usury valuation which the taxman puts on property has been going on here for some years, but until the blessed year of 1868 it did not culminate. Hitherto there was some show of decency on the part of the tax appraiser; a house worth $200,000 m|c. in the market was at best but valued by the appraiser at $250,000 m|c. Quintas that would fetch under the hammer $50,000 m|c. were rarely valued at over $100,000 m|c. This gentle rise in the value of real estate was as it were appreciated by the owners, who happy to find that the increased and ascertained value of their property was settled by law paid the taxes without a grumble. Previous to the reign of Don Mariano Saavedra all the property owners in the country were fast asleep, then it was that the new system came in vogue, the real value of property assessed, and the bewildered proprietors acquainted with the gigantic rise in real estate. In some of the partidos near town property rose from one hundred to two hundred per cent., but it was reserved for the present taxman to eclipse all this, and the rise in property now averages, in some cases, from four hundred to five hundred per cent.

It would seem as if the Government, apprehensive of disputes and law suits, consequent on such extravagant valuations, had named juries in every parish to settle all disputes between the taxman and the property-holder. This measure was fair enough on the part of the Government, provided that the appellant jurisdiction adjudicated liberally; but parties who appealed found such little relief, that they confessed it is out of the frying-pan into the fire, and nothing short of an appeal to the Minister is now of any avail.

Complaints come to us from all quarters of the monstrous valuations put on private dwellings this year. The astonished public beholds with alarm that the difference between the appraised and market value is such, that the Contribucion Directa tax, instead of four per mil, is now about seven per mil; and, at the rate we are going on, next year will be about ten per mil. Petitions have been sent to the Government, meetings held in the Bolsa, and appeals to all the juries of the whole thirteen parishes: all to no avail. Let us hope that expostulation by the press may do something. As an instance of the extortion of the taxman, we may remark, that a small strip of ground, belonging to Mr. John Davidson, close to the British Hospital, with nothing but trees and bushes on it, has been assessed at $300,000 m|c. Why, if the place had a house like Lezama's on it, we doubt if in that neighborhood it would fetch more.

The reputation of the Alsina administration is jeopardized by these outrageous valuations of the tax men. The Governor is a young man, he has yet to play important roles in his native land, and he ought to be every-way chary of his character; his dynasty has been marked by one of the most beneficial measures ever enacted in this city, namely, the adjustment of the paper dollar question; it is really too bad therefore to allow a pack of irresponsible tax men to tarnish the lustre of his administration by riding rough shod over the public and placing fictitious and imaginary values on property. The real cause of this monstrous rise in the valuation of property is the white-washing last January by order of the board of health, houses look better since they have been made to look a little clean, and now the taxman seems determined that we shall pay for it. Governor Alsina and Minister Varela should call a meeting of the tax appraisers, and order them to at once settle this vexed question by adhering to last years valuation, otherwise the public will be justified in stamping the present administration as a tax despotism without precedent, and ironically salute H. E. when retiring from office as "the dear Governor Alsina."

THE ENGLISH CEMETERY.

We have refrained from alluding to this subject, of such vital importance to the most cherished interests of the foreign community, because, being a topic which more particularly affects the pecuniary interests of the British community, we felt a delicacy in being the first to call the attention to the manifest injustice of the measure, not so much for the paltry question of £ s. d. involved therein, as upon the broad basis of international polity and reciprocal courtesy.

Since, however, the other two organs of foreign interest in Buenos Ayres, the *Deutsche Zeitung* and the *Courrier de la Plata* have already unequivocally pronounced their reprobation of the unjustifiable step taken by the Municipality, and even the native press is beginning to make deprecatory comments thereon, we shall venture also to make some remarks, and state some facts which may not be within the cognizance of the general public.

About the year 1821 the Englishmen residents in this city obtained from the then Government a general charter in due form for the establishment of a Protestant Cemetery. A short time afterwards a small plot of ground was purchased near the Socorro Church, which for several years was used as the Protestant burial-ground; its reduced dimensions were, however, soon found inadequate to the increasing wants of the Protestant community which was rapidly augmenting in numbers and importance, and in the year 1832 Mr. John Harratt purchased the square of land at present occupied by the Protestant Cemetery, and by a legally-executed document transferred the ownership to the British community of Buenos Ayres for the distinctly specified object of its being made a burial ground. Ever since the year 1834 it has been used as such; and, thanks to the able and disinterested management of the commissions that have from time to time been entrusted with its administration, not only never have any complaints been made by the neighborhood of its being in any way a nuisance, but the admirable regulations enforced might well serve as an example to other similar institutions. No coffin is allowed to be laid at less than eight feet from the surface, and the great majority of the coffins are lined with lead. The consequence is that none of the revolting sights and odours that offend one so often in the Recoleta, and that reflect a shame upon any country that pretends to be civilised, are met with in the Protestant Necropolis. In the month of April just expired not more than seven interments took place there, of which only three were adults, the rest being children; and at so reduced a rate of mortality it is matter of no wonder that there should still be abundance of room.

The neighborhood of the Cemetery may almost be called a howling wilderness, and the absurd plea that the daily extension of the city in that direction brings it into too close proximity with a populous district is rebutted by the fact that the pavement does not reach within a quarter of a mile of the Cemetery's gate, the intervening space being a succession of broken ground, and in winter of impassable pantanos which render the approach of carriages nearer than two or three squares a matter not only dangerous but impossible.

We will say nothing of the sovereign contempt with which the municipal authorities have treated the oft-repeated request to have this state of things remedied, and that one, at least, of the approaches to the cemetery gate might be made transitable at all seasons. If other considerations failed to suggest the propriety of complying with this not unreasonable request, surely the fact that the Protestant community contribute equally with the rest of the inhabitants of this city their quota of municipal taxes and imposts is sufficient to establish their undoubted right to demand compliance.

But waving all question of right, putting entirely out of view the prescriptive prerogatives and vested interests of the Protestant community at large, and of private families in particular, we ask has that wise body that sits in the œdile chairs of the Buenos Ayres Municipality ever stooped to such paltry considerations as the ways and means by which their ukase might be carried into effect?

Although Mr. Harratt paid for the piece of ground he bought only $4500, it will be no exaggeration to estimate that the purchase of a new piece of ground at the present day, and the necessary buildings that must be made to render it serviceable as a burying ground, enclosing it with a wall, building a chapel, a porter's lodge, &c., cannot be calculated in less than half a million of dollars. And where is this money to come from? With a banking crisis impending, and with the depressed state of our rural industry, is this is a time when it can fairly be hoped to raise a voluntary subscription of this magnitude? And even granting that it was possible to collect such a sum it is preposterous to think that all can be done in the space of six months, when as many years would barely be a reasonable limit.

At all events even if we were unprepared to challenge the right of the Municipality to act with such wanton disregard of individual property; none can doubt that it would have been well if before taking so invidious a step they should have at least set the right example by shutting up the Recoleta long ago, and removing a nuisance that is a disgrace to a city which has assumed the importance of Buenos Ayres.

LATEST FROM MONTEVIDEO.

REVOLUTIONARY ALARM.

GREAT ROW IN THE CHAMBERS.

Montevideo, May 6, 1868.

Here we are again the same as ever. The whole city turned upside down, and business brought to a complete stand-still. Another revolution. Government has shipped off all the troops, and the town is in the hands of the National Guard. It is really melancholy to see the young men of this place hurrying to and fro with muskets on their shoulders, reminding us of sad times, which I thought had passed never to return: but revolution seems to be the natural state of this country.

The present rebellion is a far more serious affair, than what you suppose, in Buenos Ayres, it is the upheaving of what I may term the dregs of the Colorado party. It commands the sympathies of a hungry pack of place-hunters, the 'gaucho,' the 'matrero,' and the vagabond. Maximo Perez is in his element when at the head of such a movement; and believe me, that if he unites with the sons of Flores, and marches on this city, we shall have hard times and a repetition of the South American story. It will amuse your readers to know that the Ambassadors of Perez, who arrived down by the last steamer brought a 'viva voce' despatch for the President. We gather from this that Field-Marshal Perez is not much of an 'escribano,' and I have heard it stated here that the fellow can neither read nor write.

President Batlle deserves high praise for superseding this ignorant bloodthirsty Gefe Politico. All the English and German estancieros of the Rio Negro give Perez the very worst character; and it is a relief for the Department to be rid of such a scoundrel.

The new Gefe, Albin, has left for Mercedes. General Carraballo, accompanied by Colonel Echague, has started for the camp to gather soldiers, and, I suppose, that in a day or two I shall have news of a startling character to send you.

Last night there was a great hurry-flurry here, owing to the report that Perez had reached San Lorenzo, and had marched on this town. To-day nobody believes this story.

The little steamer which hitherto plied on the Rio Negro has been removed by the Government, and it is probable that your people in Buenos Ayres will know nothing of what is going on by the Uruguay steamers.

The last debates in the Chamber here have been of the most stormy nature, and high words passed between Señor Magariños and the Minister. The unwashed in the galleries kicked up an awful row. I saw your old correspondent Zozimus applauding vociferously every word the Minister uttered, and making various noises to put down forced currency. But you may take my word for it the whole thing is a farce; and notwithstanding the powerful letters of Mr. Tomkinson which are written with an ability that reflects the highest credit upon him, there will be no specie payments on the 1st of June; but in all human probability there will be further paper emissions. It is about time that people here should open their eyes to the fact that the banks can go on emitting *ad libitum*, whilst the question is being discussed in the Chambers and letters are published in the papers.

Your countryman Mr. M'Arthur, I believe, has obtained a concession for running telegraph wires all along the Uruguay. He will shortly commence operations, and is already about to contract for the posts; if the line is as well worked as that between this city and Buenos Ayres, I doubt not it will pay well. Mr. M'Arthur is at present in your city.

It is remarked here that of late there has been a great falling off in the arrivals of Brazilian transports; and it is becoming pretty obvious that recruiting is being abandoned in Brazil. Various rumors are current here respecting the removal of the Commander-in-Chief, and the future policy of the Rio Cabinet. Possibly by the English mail news of a rather novel kind may come out, touching the Paraguayan war.

The widow of the hero of Paysandu has gone to an other and better world. The name of Leandro Gomez will be for ever revered in the Banda Oriental—Colorados, Conservadores, and Blancos alike respect and honor the indomitable courage which has shed a halo around his name. It speaks well for a people to see that true valor commands respect from even the bitterest political enemies. The widow of Leandro Gomez was an individual unknown to fame: but the widow of the hero of Paysandu had claims, as it were upon her country's history. Peace be to her ashes! At her funeral, the chief people attended. She sleeps beside the remains of the bravest man that the Banda Oriental has ever produced.

Respecting the Presidential election in the Argentine Republic, positive advice have been received by the Entre Riano people here that General Urquiza possesses fifty votes, not one more, not less, and that these vote he has pledged to give to Dr. Elizalde who beyond all doubt will be the future President. Sr. Sarmiento would make an excellent president as his experience abroad must necessarily give him the most enlightened views, had I a vote I believe I should give it to him in preference to any other candidate, for although I have a very high opinion of Dr. Elizalde a trip to Europe or the United States would do him all the good in the world. Elizalde is the man of the day he is backed up by the influence of Mitre and Urquiza, and if he fails to command the votes of Buenos Ayres, it is because he has refused to join the circle which directs and manages those votes; the young politicians of your city may be leagued against him, the whole 'Crudo' party may toil for his defeat, all your newspapers may attack him, but his party in the Republic is the strongest, the most influential and the most powerful. Even in your very city I am told the whole commercial body, all your millionaires, and provedores, are, to a man, in his favor: and if the Sarmiento party represent the young River Plate, the Elizalde party, on the other hand, represents the wealth, influence, and power of the Argentine Republic. There ought, therefore, to be an end put to the senseless disputes going on in the papers, as it is a well settled matter that Don Rufino Elizalde will be future President.

The City of Brussels has left with her noisy cargo; she experienced heavy weather coming down here, and most of the ladies and children were seasick. The City of Limerick will be the next steamer of this line, and some parties are already engaging their passage.

The Humbodlt was expected in to-day but has not yet arrived. Gold keeps running up; 50,000 pats. sold to-day at 15 per cent. premium. But I know little about commercial matters, the enviable proprietor of Hawthorn Park can keep you better posted up as regards the Bolsa.

EDITOR'S TABLE.

The war in the Banda Oriental has disturbed our steam communication with Montevideo. On Thursday evening no steamer left this for the Mount, and yesterday morning we were without our refreshing Oriental exchanges.

The steamer Estrella arrived from Rosario on Thursnay, at 12 o'clock, having been ten hours at anchor owing to the fog. She brought sixty passengers and the mails. Owing to the new arrangement by the Northern Railway, complaints of the most extraordinary character come to us by the passengers. It appears that the peones of the railway no longer put the luggage on board, and this extra expense comes very heavy on the poor passengers, who grumble also at the charge of the railway for luggage to the Retiro. We call the attention of Mr. Crabtree, the active manager of the line, as the steamboat agents are so annoyed that they threaten to give up the Tigre, and, as in former years, to start from the inner roads facing the mole. This would be a very serious loss for the company, as we understand that the steamers give the railway two thousand passengers per month.

On Sunday a meeting of the parishioners of the Rev. Mr. Carolan will be held at Lujan with a view to present this highly esteemed gentleman with a testimonial on the occasion of his leaving the country. We have no doubt that the meeting will be largely attended, as this worthy pastor is beloved and esteemed by all, and his unceasing exertions for his parish speak for the true merits of this exemplary pastor.

A subscriber from Paysandu informs us that things up there are very quiet, notwithstanding the Maximo Perez revolution. The sheep farms are all doing well; land up there has somewhat fallen in value—a suerte of fine land is offered for $9,000.

The great Carthy estancia auction will take place on the 15th and 16th insts. We call the attention of our readers to this magnificent estate, which will probably be sold cheap. The land is some of the finest in the country well situated and adjoins Sr. Lezama's estancia.

We have seen the subscription lists of the Athletic Sports Company, and can promise our readers that the prizes will be well worth contending for, judging from the liberal subscriptions of the merchants, &c. The meeting last year was a splendid success, and the Olympic sports this season will doubtless surpass it. The programme is excellent, and the preparations going on the most complete.

Our distinguished fellow-countryman Admiral Noonan was, on Thursday morning entertained at a *dejeuner a la fourchette*, at Elortondo Abbey, near San Isidro. The affair was *recherche* and grand in the extreme; in fact, the splendid hospitalities paid our distinguished countryman have eclipsed everything of the kind hitherto given in Buenos Ayres. Marshal McMahon, Admiral O'Donnell, Colonel O'Higgins, and Count Nugent, all toilers in the same high path of honor and distinction, know how they will be received when they come to visit the River Plate.

The Jewess, from the States, has arrived to Messrs. Coffin and Son; she brings a cargo of pine and agricultural instruments. The latter are now becoming very saleable here and Messrs. Coffin are doing a large business in reaping and mowing machines of improved patents. Some valuable works on drainage and railways have also come by her, which Mr. Coffin has kindly promised to lend us, amongst the rest the last work on the Pacific Railway showing the cost of the works &c. this will prove a valuable book to extract from.

Parties are anxious to know why the Government does not either run the Western Railway to Barracas or sell the line by auction; the road it appears was a great blunder, but a still greater blunder is to have it lying idle, and the parties whose property it has invaded have not yet been paid by the Government for their land.

It is said that at last there is a Congress quorum in town, and that Congress will be opened in a day or two. President Mitre is hard at work at his message; but what, we ask, has become of the message of the Ministers for last year. We believe they were never printed owing to the fire in the Government house; it is time now at least that they should be published.

Governor Alsina is also busy writing his message. We hope the Governor will not forget to say something about the tax men and their valuations.

Our colleague the *Patria* publishes an excellent plan of the peninsula where the last fight took place in the Chaco, it tallies exactly with a plan which a certain leading English broker exhibited on the Bolsa the other day, and we suppose is therefore correct: but the real place for the fight is Timbo. This place has not been attacked yet, it is defended by men soldiers, and is represented as a strong position.

We hail with pleasure a new cab company shortly about to be started in this city, charge to be $10 per hour and even at this price the fare is high enough.

The last letters from the army state that President Mitre is hourly expected at head-quarters, as the moment he opens Congress he starts for the allied camp. We apprehend, however, that H.E. will not be able to start so soon as they expect owing to the impeachment which will be carried on with the full rigor of party animosity. The lawyers engaged, are all busy reading up for the trial, under such circumstances the President must remain here, unless he wishes to try the question whether the Supreme Court could issue a writ of "ne exeat" against him; we believe the Court can do so, even although the case has not been fully brought into court by a vote of Congress.

The Lujan, from Rosario, came in yesterday in the afternoon. Among her passengers was Don Salustiano Zavalia, who returns, after his arduous electioneering campaign in the North Provinces, flushed with success. We gather, however, from other passengers that the news of the late elections are very conflicting.

Passengers arrived by the Southern Railway, and by the diligences from the South, report that the severe frosts that fell last week, greatly prejudicial to newly born lambs, had discontinued, and the weather, for the last two or three days, was become very mild and pleasant.

The notice in our columns with regard to the firm of Estevan Hermos & Co., having appeared with some notable inaccuracies, in our last issue, we beg to call the attention of our commercial readers to the corrected one in our advertising columns.

We are highly pleased to remark the unflagged support which the Athletic Sports Club meets with. The entries already made for the approaching meeting place beyond a doubt its anticipated success—and we think the Committee have done wisely in extending to the 14th inst. the period for making entries. A notice will be found in our advertising columns announcing this fact and giving the reformed programme of proceedings.

MR. WASHBURN'S DESPATCHES.

Contradictory statements having been made, with reference to the transmission of the official despatches forwarded, per U.S.S. Wasp, to the American Legation in Paraguay, the following note, addressed by the Brazilian Minister to the U.S. Consul, removes all doubts on the subject.

[TRANSLATION.]

Brazilian Legation, Buenos Ayres, May 7, 1868.

Mr. Consul,

In compliance with your request I sent to the Marquis de Caxias the correspondence addressed to Mr. Washburn, Minister of the United States in Paraguay, which you remitted to me with your note of the 1st of April.

I have now to inform you, as may be seen by the tenor of the enclosed extract of a communication from the Marquis himself to the Special Mission of the Empire in the River Plate, that the Paraguayans have refused to receive the above correspondence, which I have the honor now to return to you.

I hasten to bring to your notice this fact, of which I only to-day was made aware, and I avail myself of this opportunity to renew to you, Mr. Consul, the assurance of my distinguished consideration and regard.

Signed, A. P. DE CARVALHO BORGES

M. E. Hollister, Esq.,
U.S. Consul.

[ENCLOSURE.—TRANSLATION].

Extract of an official communication dated April 22, 1868, from H.E. the Marquis de Caxias, to the Special Mission of Brazil in the River Plate:—

"Our Minister Resident in Buenos Ayres wrote to me officially under date of the 2nd inst., remitting to me two packages of correspondence, said to contain despatches from the North American Government, and private letters for Mr. Washburn, Minister of that Republic in Paraguay, informing me that he acted thus because during Y. E.'s absence in Montevideo the American Consul in Buenos Ayres had requested that said papers should be forwarded to this Command-in-Chief, to be remitted to their destination whenever an opportunity offered.

"In consequence of the above, on the 21st inst., at ten in the morning, having notified the enemy with the customary formalities, I sent a flag of truce entrusted to Colonel José Antonio Correa da Camara, who took with him the above-mentioned correspondence. The enemy came to receive the flag of truce, and the Paraguayan officer, after being informed of its object, went back to the interior of the Humaitá fortress, and returned from thence with the formal declaration that he would not receive said correspondence."—(True extract).

Signed, A. P. DE CARVALHO BORGES.

A VOICE FROM THE CAMP.

To the Editors of the *Standard*.

Gentlemen,—

I trust that your journal, ever devoted to the interests of the country, can make room for a few words on the all-absorbing sheep question.

It has been already explained that sheepfarming does not pay, a fact which the slackened purse-strings and long collapsed pockets of sheepfarmers will not dispute; but a sound practical remedy is seldom suggested, I believe; simply because sheepfarmers, and every one who has had actual experience of the business, know too well that the profits of their calling have decreased from causes altogether out of their control.

It is plain that sheep do not pay as in former years, for the reason that wool is lower and camp rent is higher; it is equally plain that it is only by a removal in whole or part of these two oppressive drawbacks to this industry that it can be placed on anything like its former basis.

The rise in camp rents is to be attributed to a deficient supply, the depreciation in wool principally to a lessened value in the foreign markets, and also to increased imposts placed on it by the Government here; which clogs the hard-driven producer in other modes various enough. Yet we, sheepfarmers, can expect only through the Government an increased supply of camp. This would follow from the Indians being kept back, and by that means giving the opportunity of moving out with their stock to those who wish to do so, and leaving us more room inside. It is said that the outside camps don't pay, but that is for the consideration of those who move. Every sheepfarmer knows that if the

frontiers were defended a large number of cattle, and at least coarse sheep, would move out. Our only hope for a permanent improvement in the price of wool must likewise rest in the "powers that be;" they alone have the power to reduce the heavy export duty which is levied upon this staple —the mainstay of the country—the main support of everything in it.

Now, I ask, though I know any hope in the Government is with us sheep-farmers a plant of sickly growth, is it possible that no amount of influence which might be brought to bear on our rulers could turn their attention to this vital subject? Is it possible that they can be so forgetful of their own interests, and so callous to those of the country, that they could not leave their political squabbles for ever so short a time to act in a matter of vital importance? Would a petition going up from the united sheep interest of the River Plate, to the Legislature and Executive bodies, have no effect? Sheepfarmers, as those who pay so large an amount of the taxes, have every right to make such a petition, and every right to insist that their claims shall not be trifled with.

In the interests of the country I would like to see these plain questions laid before it, through the columns of your valued and wide-spread paper. For my part, I thought the idea of your correspondent "Lapatra," concerning a "Congress of Campmen," not a bad one. Such a Congress, if held in the wool season, would then be best attended by the really practical men of the country. By that time, also, the new Government would be launched on its career for good or ill.

MONTEVIDEO.

The Oriental Government issued on Wednesday the following decree:—

Department of War and Marine,

Montevideo, May 5, 1868.

Colonel D. Maximo Perez having declared himself in open rebellion against the constituted authority, as he himself expressly manifests in his note to the Government, dated 3rd inst., and the Government, thinking it incumbent upon it to chastise in the most energetic manner an offence that implies the overthrow of the principles of order and morality which are the basis of all Governments, the President, at a Cabinet Council of his Ministers, decrees—

Art. 1. The above-named Colonel Perez is hereby declared a rebel against the authority of Government.

Art. 2. The Commander-in-Chief of the Campaña, Brigadier D. Francisco Caraballo, is commissioned to proceed with the forces that shall be placed under his orders, and reduce said officer to submission to the authority of the Government which he has ignored.

Art. 3. Let this same be communicated to all the authorities of the Campaña, in order that they may assist on their part to the capture of said rebel officer, and of any forces that by his command shall appear in their respective Departments; advising in due time the Legislative body of the same.

AN AMERICAN ADMIRAL DROWNED.

The 'Shanghai Recorder' of the 23rd January has the following:—The Silvia crossed over from Hiogo on the 7th January with Admiral Keppel and Captain Stanhope of the Ocean on board, and the whole party, including Captain Brooker and nearly all the officers of the Sylvia, went up to the Legation. The day following (8th) it set in a heavy gale, and they were unable to cross the bar. On the evening of the 9th the Admiral determined to try the bar, towing the Sylvia's steam cutter out. They were obliged to separate the two boats as there was a tremendous sea running and they were both nearly swamped. The admiral's boat, deeply laden, with Captain Stanhope, Commander Brooker, Lieutenant Bullock, Mr. Mitford of the Legation and some officers of the 9th just succeeded in getting hold of the Laplace, French man of war, where for five hours they held on astern, up to their middles in water and expecting to go down every minute. The sea was so heavy and the wind so furious that, though hanging on astern of the ship, no one could be got out of the boat. At last, in a lull, they made a dash for the Sylvia. The officer commanding her had in the meanwhile been obliged to get the ship under weigh and steam further out, as she was too close to the shore. Providentially they succeeded in reaching the ropes veered astern for them from the Sylvia; the life-boat was then lowered and with great risk of life the whole party was got on board, nearly paralysed with cold and hunger. The admiral showed the greatest pluck the whole time. Next morning the other boat was soon inside the bar. On Saturday the 11th American Admiral Bell determined to cross the bar, and started with his flag lieutenant, and a boat's crew of eleven. The boat was upset on the bar, and the admiral, his flag lieutenant, and eight men were drowned.

AN INVISIBLE ADVERTISEMENT.

More than words can say for it, MURRAY & LANMAN'S FLORIDA WATER says for itself the moment a bottle is opened. It breathes its own recommendation, and circulates it through the room. You sprinkle it upon your handkerchief and carry with you an inexhaustible bouquet. If your skin is tender what a soothing after shaving is this delicious toilet-water diluted? Used in this way it removes tan, freckles, and all all superficial roughness, and in nervous headache and hysterics, its soothing odor acts like a charm ☞ Purchasers are requested to see that the words FLORIDA WATER MURRAY and LENMAN No. 69 Water Street, New York, are stamped in the glass on each bottle. Without this none is genuine.

ON 'CHANGE.

May 8, 1868.

Ounces,	$400
Sovereigns,	122½
Patacons,	25
National Bonds	46

There were no Bond sales for cash to-day, and the market evidently wore a much flatter appearance than on the day previous. On time there were several sales—prices for the end of May and June ruled a shade easier—but the transactions were unimportant.

The telegrams from Montevideo were of a most unsatisfactory character. The meeting held at the Banker Navia's resulted in nothing; and, although the Bolsa telegram announced that four of the Banks—namely, the London and River Plate, the Commercial, Navia's, and the Oriental—had signed a requisition to the Government, praying of the Chambers to enforce specie payment; few believe that it will amount to anything, since the rest of the banks, and those with the largest circulation and deposits have not signed. All parties agree that the Maximo Perez revolution is of a most serious character, and likely to cost the country much to put down or arrange. It was said on 'Change that Perez is now making forced marches on Montevideo, and that on the road there is nothing to oppose him. Of one thing there can be no doubt, namely, that the Montevidean capital invested here is not being removed; on the contrary, fresh funds are by each mail arriving here for investment. Owing to the rather critical state of that market, Exchange drifted off somewhat to-day, and the London and River Plate Bank reduced its rate to 49. But the bulk of the business to-day was done at 49¼.

No commercial advices have been received from Europe, but from Rio letters have come to hand, stating that Exchange has fallen sensibly and gold gone up.

Gold in Montevideo rules at 15 per cent., and sovereigns at 16 premium.

In the produce plazas large sales of wool and hides. Dry hides sold to-day in the South Plaza as high as 140 per pesada; and a very important sale by a barraquero on the Bolsa was spoken of at reserved rates. The rise in dry hides from 125 to 140 per pesada, during this last few days, is attracting much attention.

Gas Shares rule very firm, at 55—no sellers. The annual meeting has been convened for the 15th inst.

The total loss of the mill premises by fire is estimated at $400,000. Premises partially insured.

Our special reporter notes the following sales at the South Plaza:—

1157 ar. from Loberia sold at	56
2000 ar. deposit	57
650 ar. mixed	56

REMATE.

POR FRANCISCO DE LA SERNA—Atencion artesanos y fabricantes opulentos!

38 lotes de terreno de inmenso porvenir, de 12 y 13 vs. de frente al Norte en la calle de Rivadavia, por 100 vs. de fondo al Sud. En tres manzanas con seis esquinas.

Calle empedrada de Rivadavia desde la boca calle de la estacion Almagro para el 11 de Setiembre.

El Domingo 10 de Mayo a las 11 en punto de la mañana, se rematarán los terrenos que dejamos designados, la mitad del importe al contado y la otra mitad a 6 meses de plazo y mejor oferta.

Si la localidad constituye el verdadero merito de esta clase de propiedades, como es inegable, esta por las importantes ventajas que encierra, ya sea considerada por el valor creciente que le transmite la poblacion de la capital que se estiende rapidamente por esa calle empedrada, que es la entrada principal de la campaña; por su inmediacion al gran mercado de frutos del 11 de Sitiembre, por la facilidad y baratura para transportarse al centro en los omnibus o por el treway que muy pronto se establecerá en esa direccion, y por las condiciones ingiénicas en que la coloca la elevacion de aquellos terrenos: sin exageracion podemos decir, que es la de mejor porvenir que se puede elegir para la construccion de casas espaciosas para familias, CON 100 VARAS DE FONDO, o para aquella clase de fabricas, barias y todo genero de establecimientos industriales etc.

Los Sres. licitadores pueden ocurrir por planos a casa del Rematador, Calle de Belgrano num 218.

El ramate puntualmente se verificará sobre los mismos terrenos, el dia y hora que queda anunciado. 29 xp m5

ALAS PERSONAS EN BUSCA DE FINCAS casas, piezas etc. para arrendar—Una utilisima publicacion, cuya falta en Buenos Aires era notable tanto para los propietarios en busca de inquilinos, va a salir desde 1.° de Mayo proximo.

Consiste en una lista que se renovarà tres veces por semana, en la cual se darán las señas de todas las fincas, casas y piezas que existen en Buenos Aires y sus suburbios para alquilar: tambien hará conocer el precio de arriendo de las casas, el número de piezas etc.

Con esa lista ahorraran un tiempo precioso las personas en busca de alojamiento; y a los proprietarios y dueños de casa les reportará el beneficio de ver casi siempre sus inmuebles muy poco tiempo desocupados.

Dicha lista se venderà en los kioscos avisadores.

Para realizar tan útil empresa, rogamos a los Sres. proprietarios maden en cuanto les sea posible los avisos a que nos referimos, los cuales serán recibidos gratis en los Kioscos. 223 6p m2

THE ACME OF MEDICAL SCIENCE

IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN

DR. RADWAY'S

PERFECT PURGATIVE PILLS

COATED WITH SWEET GUM.

1st Principle—A vegetable substitute for Calomel or Mercury is secured.

2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.

3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.

4th. Purification and equalization of the circulation of the blood.

5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretion.s

6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.

7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.

Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S

REGULATING PILLS.

A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF

DR. RADWAY'S PILLS.

They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.

AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.

PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for geaeral use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.

THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.

THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.

THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.

THEIR COUNTER IRRITANT influence extends threughout the system where there is inflamatiou, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.

AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.

THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.

THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-colored Sking, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, these pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. One or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.

In case where there is severe inflamation, paralysis of the bewels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to opon the bowels woon Croton Oil. Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of the artisans, working men, and servents of all classes and conditions, who are equally interested in putting their savings out at interest, thereby assuring themselves with a reserve fund in case of illness, sickness, or old age, instead of spending it in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

IMPERIAL PETROLEUM,

IN PATENT TIN CANS.

BRILLIANCY, ECONOMY, SAFETY!

The Undersigned beg to inform the Public that they have received direct from the Proprietors, Messrs. LANMAN & KEMP, NEW YORK, a shipment of the above Celebrated Petroleum Oil, which has established for itself a reputation for excellence surpassing all other Petroleums. The following are some of the qualities possessed by it:—

1st. By a great improvement in Refining, it is freed from the Gaseous Naptha, and will, therefore, stand a higher degree of heat than other Petroleums before Igniting, thus making it much safer; in fact, almost

NON-EXPLOSIVE!

2nd. It is pure white in colour, has scarcely any smell, and is clean and pleasant to handle.

3rd. It has a much greater density or heaviness of body than ordinary Petroleum—a large part of which latter passes off in Gas,—the Imperial Petroleum being Pure Oil will, therefore, with rare exception,

BURN 25 PER CENT. LONGER!

than other Petroleums

4th. The flame from the Imperial Petroleum is a pure white, while nearly all other Petroleums give a yellow opaque flame. On this account, two Lamps burning the Imperial Petroleum will give as much Light as THREE Lamps burning ordinary Petroleum.

5th. It burns clear and steady without flickering, which is a great relief and saving to the eyesight.

6th. It does not Crust in the Wick, and, therefore, requires Trimming but seldom.

7th. The Imperial Petroleum is shipped in Patent Tin Cans, not liable to leak, thus avoiding the loss so often entailed upon the buyer, and being from one vein of Oil, it is always uniform in colour and qualities.

We respectfully ask the attention of Families, Storekeepers, and those who have in charge the Lighting of Schools, Churches, Public Halls, and Street Lamps to this very superior Oil, which, from its SAFETY, ECONOMY, and BRILLIANCY, they will find admirably suited for their various purposes.
